International
Financial Services Centre

India

IFSC at GIFT City
Gujarat, India
International Financial Services Centres Authority (IFSCA)

The Government of India established International Financial Services Centres Authority in April 2020 under the International Financial Services Centres Authority Act passed by the Indian Parliament.

For the first time, the regulatory powers of four financial services regulators in India, namely, Reserve Bank of India (RBI), Securities & Exchange Board of India (SEBI), Insurance Regulatory Development Authority of India (IRDAI), Pension Fund Regulatory Development Authority of India (PFRDAI), have been vested in IFSCA with respect to regulation of financial institutions, financial services and financial products in the IFSC, making it a unified regulator for the IFSC.

Approved by Government of India as an International Financial Services Centre (IFSC) at GIFT City, the IFSC reinforces India’s strategic position as a global hub for financial services. Apart from providing a global financial platform, it provides easy access to the Indian economy, which is amongst the largest and fastest growing economies in the world, and connects ~30 Mn strong Indian diaspora globally to India through the IFSC.

IFSC at GIFT provides an unprecedented opportunity to Global investors to set up businesses in the areas of banking, investments (especially green finance and social impact capital), insurance and reinsurance, capital market and asset management. It is poised to emerge as a leading fund-raising destination for both Indian and Foreign issuers and as a global hub for fintech start-ups.

It enables registered entities, including branches wherever permitted, to operate, innovate and succeed, facilitated by an internationally comparable regulatory framework under a special offshore status within India.

The latest Global Financial Centres Index, London, (September 2020) places IFSC at GIFT City right at the top amongst 15 centres globally, which are likely to gain greater significance in next 24 months.
Message from IFSCA Chairman

As the first chairperson of IFSCA, it shall be my continuous endeavour to pro-actively interact with all stakeholders with a view to create the most appropriate regulatory framework and underlying ecosystem for establishing the International Financial Services Centre (IFSC) in India as a preferred destination for raising capital, trading in various types of financial products and availing of all types of international financial services.

In today's world of globalization, global capital acts as an important driver of economic growth and development wherever global investment opportunities exist. The setting up of the IFSC in India is aimed at tapping global capital flows to meet India's development needs and simultaneously provide a globally competitive financial platform for the full range of international financial services at the regional and global level.

The IFSCA is a unified authority for development and regulation of financial products, financial services and financial institutions in the International Financial Services Centre in India in the areas of banking, insurance, securities and funds management. We at IFSCA are committed to providing a comprehensive and consistent regulatory framework based on global best practices with a special focus on ease of doing business. As a unified regulator we are committed to ensuring financial stability and protecting the interests of investors. At the same time, we would like to allow enough space for financial innovations with adequate risk management measures in place. We are also committed to ensuring that regulatory environment is fully FATF compliant with strong enforcement measures of AML and CFT in place.

The immediate priority areas include listing of Depository Receipts, Equity and Debt Instruments for raising capital as well as secondary trading (including derivative trading), Non-Deliverable Forwards in INR-Foreign Currency, hub for all types of Investment Funds, Aircraft Leasing and Financing, International Bullion Exchange, FinTech Hub and setting up of large scale Global In-house centres.

IFSCA is in the process of obtaining membership in premier international forums of financial regulators. We are equally keen to enter into bilateral MoUs with our counterparts across the world. I take this opportunity to welcome potential participants to set up their business in the IFSC in India and assure them full support of IFSCA in terms of time bound processing of applications, positive regulatory environment and ease of business.

Injeti Srinivas
Chairman, IFSCA
India is the fastest growing ~USD 3 Tn economy in the world and the 5th largest overall.
