(A statutory authority established by Government of India)
2nd & 3rd Floor, Savvy Pragma, Gujarat International Finance Tec-City
(GIFT City), Gandhinagar Gujarat – 382355, India.

Notice

Inviting industry to participate in an initial meeting for better understanding of IFSCA's requirements w.r.t. proposed Core Supervisory Technology (Core SupTech) System of IFSCA.

IFSCA has been established on April 27, 2020, under the IFSCA Act, 2019. It is headquartered at GIFT City, Gandhinagar in Gujarat. IFSCA is a unified authority for the development and regulation of financial products, financial services, and financial institutions in the International Financial Services Centres (IFSCs) in India. At present, the GIFT IFSC is the maiden IFSC in India. Prior to the establishment of IFSCA, the domestic financial regulators, namely, RBI, SEBI, PFRDA and IRDAI regulated the business in IFSC. As the dynamic nature of business in the IFSCs requires a high degree of inter-regulatory coordination within the financial sector, IFSCA has been established as a unified regulator with a holistic vision in order to promote ease of doing business in IFSC and provide world class regulatory environment. The objective of IFSCA is to develop a strong global connect and focus on the needs of the Indian economy as well as to serve as an international financial platform for the entire region and the global economy as a whole.

IFSCA intends to select an IT Solution Provider (SP) to design, develop, implement, operate, and maintain the Core Supervisory Technology (Core SupTech) System of IFSCA. Prior to publication of RFP, IFSCA intends to invite prospective Sis/ SPs/ OEMs to participate in an initial discussion which will explain the requirement of the proposed Core SupTech System.

In this regard, a workshop is being organised at IFSCA HQ. These discussions in the workshop shall be Techno-Functional in nature. The Sis/ SPs/ OEMs are requested to participate **online/ in-person** with their team members having technical and business analyst profiles. Details are mentioned below:
